**Suggestion or proposal:**

Best wishes to the journal for publication of quality articles in the field of bioequivalence & bioavailability research. I would like to mention that

- 1- The aim and scope should be specified, since nothing was mentioned about that. It is very general
- 2- Citation report should include data generated from Scopus or web of science (ISI)
- 3- What's going on IF? Did you apply? If you have unofficial IF, put it on the homepage of the Journal
- 4- The photos of all Editorial board members need upgrading, please ask them to provide good quality one
