Dear Andreas Ebner

We are thankful to you for your contributions towards the growth of the Journal of Physical Chemistry & Biophysics. We would also like to thank you for your rational efforts which have given this journal an international picture. It is because of your immense efforts that we could stand and think among peers of fellow Open Access publishers.

An important part in sustaining reputation is by maintaining publishing quality. So, we have taken a step forward in that direction and implemented a strategy called "Reputation Management" where a little help/contribution from your side will mean a lot.

To make this strategy successful and to maintain an international reputation, we will be grateful if you could write a testimonial for the Journal of Physical Chemistry & Biophysics, which will include the Journal's achievement and future focus.

Best Regards  
Ruby Catherine  
Editorial Assistant  
Journal of Physical Chemistry & Biophysics
