

Dear editors,

The fame of your fantastic journals bring me here to write to you. I am currently working as a research scientist(cancer therapy) in University of Arkansas for Medical Sciences. My expertise is focusing on cancer therapy. As a faithful reader, I learned a lot from the journals published in Insight Medical Publishing, which helped my research very well. To express my great gratitude and give a feedback to your journals, I would like to request as a reviewer for your excellent journals such as *Archives in Cancer Research*, *Journal of Neonatal Studies*, *Journal of Neoplasm*, *Archives of Medicine*. I realized that your journals have a high criterion of selecting this role, thus I include my CV in attachment for your review.

If you need any other information from me, please do not hesitate to contact me.

Thanks for your precious time.

Best regards

Bin Fang, M.D., Ph.D.

Department of Dermatology, UAMS
