Subject: Editorial Board Reformation

Dear Dr. David Kadosh,

As you are probably aware, the Journal has been doing very well, receiving and publishing manuscripts of value and interest from around the globe. We are publishing papers both of scientific and of clinical merit. So far, it has been very satisfying. But the time has come to increase the efficiency of the EB.

In order to enable the further evolution of the Journal of Medical Microbiology & Diagnosis in this Darwinian world. The Editorial Office and I call upon the EB members to renew and declare their desire actively to serve on the EB. Such active membership implies, and requires, a willingness to handle and review manuscripts as they are assigned. Of course, we understand that occasionally there may be problems and delays. However, in each case, we try to assign the manuscript to an appropriate Editor. If you are unable to find Reviewers, then personally review the manuscript and promptly submit your review. Such a policy will help to distribute the editorial workload more equitably and efficiently.

Please respond ASAP to this email letting us know whether, or not, you wish to continue your EB membership, with the above comments in mind. We thank you for your interest in, and support of the Journal of Medical Microbiology & Diagnosis and look forward to your response. .

With best wishes.

Nikela Parks
Editorial Assistant,
Journal Of Medical Microbiology & Diagnosis

Joel K Weltman, MD, PhD

Journal of Medical Microbiology & Diagnosis

Editor-in-Chief,
Journal of Medical Microbiology & Diagnosis
