

To,

The Editorial Board,

I am writing this email to express my interest in being associated with Journal of Immunobiology as a member on Editorial Board.

I am Faisal Aziz, PhD, in Biochemistry and Microbiology, currently working as a Postdoc Research Fellow at The Hormel Cancer Institute, China & USA. My specific interests are bacterial immunology, host pathogen interactions and gastric diseases (gastritis and gastric cancer).

I have published 14 papers and present 9 abstracts in different conferences. I am already a member of Editor-Board in International Journal of Microbiology, Biochemistry and Molecular Biology and reviewer in Tumor Biology, African Journal of Biology, and Edorium Journal of Cancer. At this point it would be great boost for my career to be associated with this journal.

I am attaching my CV for your consideration and hopefully I would hear back from you soon.  
Thanks

Regards

Faisal Aziz, PhD  
Postdoc Research Fellow  
The Hormel Cancer Institute, Zhengzhou, China  
& Austin, USA
