Dear Jason Oliver,

I am Dr. Gaurav Sharma. I interested for editorial position in Pharmaceutical Analytical Chemistry: Open Access journal and interested in working with you. I had done my Ph.D. in chemistry on topic “Nanocomposite ion exchanger: synthesis, characterization and their analytical applications” in 2014. I had published 27 research papers in high impact national and international journals of repute. Presently I am working as assistant professor in school of chemistry, Shoolini University, Solan, India.

My thrust areas of research are Nanocomposites, Bimetallic nanoparticles, Ion exchanger, Drug delivery, environmental remediation and Grafting. My focus of research lies on fabrication of smart materials in nano domino and exploring their applications in diverse fields. I had enclosed my Curriculum Vitae for your review and consideration.

Looking forward for your response.

Best Regards

Dr. Gaurav Sharma
