<editor.microbiology@omicsinc.com>:

> Dear Dr. Honorio Adenilda Cristina Franca,

>

> As you are probably aware, the Journal has been doing very well,
> receiving and publishing manuscripts of value and interest from around
> the globe. We are publishing papers both of scientific and of clinical
> merit. So far, it has been very satisfying. But the time has come to
> increase the efficiency of the EB.

>

> In order to enable the further evolution of the Journal of Medical
> Microbiology & Diagnosis in this Darwinian world. The Editorial Office
> and I call upon the EB members to renew and declare their desire
> actively to serve on the EB. Such active membership implies, and
> requires, a willingness to handle and review manuscripts as they are
> assigned. Of course, we understand that occasionally there may be
> problems and delays. However, in each case, we try to assign the
> manuscript to an appropriate Editor. If you are unable to find
> Reviewers, then personally review the manuscript and promptly submit
> your review. Such a policy will help to distribute the editorial
> workload more equitably and efficiently.

>

> Please respond ASAP to this email letting us know whether, or not, you
> wish to continue your EB membership, with the above comments in mind
> .We thank you for your interest in, and support of the Journal of
> Medical Microbiology & Diagnosis and look forward to your response. .

>

> With best wishes.
