Dear Samuel,

Thank you for the answers. OK. I accept your invitation to serve as Executive Editor for Advances in Recycling and Waste Management.

Could you please send me:

- 1- Any instructions, tutorial, or guide about how to use the journal's (Advances in Recycling and Waste Management) electronic system for manuscripts processing.
- 2- send me my username and the temporary password so as I can login to the journal electronic manuscript submission-processing systems.
- 3- Do you provide email inbox on the server of the journal/publisher , i.e., or I need to open an account with a public free email providers such as Gmail, yahoo, Hotmail, etc.

Regards,

Noori

Dear Dr Noori Cata,

Greetings for the day!

Thank you for your response.

We are glad for your consideration of our journal.

We would like to bring to your kind notice that ours is a new journal which has been recently launched.

We are in the process of appointing the editorial board members and the editor-in-chief.

Executive editor has a role same as any other editorial board but is most active.

The Executive editor is contacted, when the editor-in-chief is not available.

The Handling editor and the Managing editor play a role when the executive editor or the editor-in-chief is not able to respond to the assignment in time, in order to not slow the review process.

The mentioned address has one of our branches and is mostly used for communication purposes.

Hope we were able to answer your queries aptly.

Have a great day ahead!
