

dear ryan.

i am very glad and motivating for your kind invitation to serve as an eminent member of this editorial board.

as part of this team, i am encouraged to invite colleagues to submit MS to this journal as soon as you approve my membership.

please, find attached my current biosketch and a photo, following below an outline of research interest list:

- BCG vaccine (in vitro models)
- Human Tuberculosis (cell-mediated immune response).
- Hyalohyphomycosis (mice model).
- Co-infections (in vitro models).

thank you very much again, and looking forward to work w/ you.

best regards,

PAULO R. Z. ANTAS
