Dear Anissa Andrews,

I am interested to be a member of editorial board of Journal of Antimicrobial Agents. Attached is my CV and photo.

Biography:

Dr. Pei-Hui Wang is a research associate in the department of biochemistry at the University of Hong Kong. He received B.Sc and M.Phil degree in school of life sciences at Sun Yat-Sen University. Dr. Wang got his Ph.D degree from the department of biochemistry at the University of Hong Kong. He is primarily interested in questions relating to (1) the innate immunity of crustacean and (2) interactions between the host innate immune responses and microbial infections.

Research interest:

antiviral immunity, invertebrate virology, crustaceans, aquatic organisms, disease resistance.

Thanks!

Best regards,

Pei-Hui Wang

Journal of Antimicrobial Agents

Dear Dr. Pei-Hui Wang,

Greetings!!!

We have gone through your previous article entitled "Nucleic acid-induced antiviral immunity in invertebrates: an evolutionary perspective." and it is our immense pleasure to invite you as a potential author to contribute a manuscript (research or review article) for consideration and publication in forthcoming issue of Journal of Antimicrobial Agents. You may also write a Short communication based on your previous article or an Editorial or an opinion article or commentary or case report or conference proceedings as per your expertise. Your article will be considered for Vol 1 issue 2 of the Journal.

The deadline for submission of manuscript is December 24, 2015. You may submit your paper by e-mail at <mailto:editor.antimicro@omicsinc.com> or online at <http://www.editorialmanager.com/medicaljournals/default.aspx> .

Kindly, let me know as soon as possible if you are interested in submitting a manuscript for our journal issue. It is an opportunity to take part in and to influence future trends in one of the fastest growing fields of research. For more details: <http://www.omicsonline.org/antimicrobial-agents.php> .

We will be looking forward to hear a positive response from you soon.

Best regards,
Anissa Andrews
