Dear Maria:

Here is my biography:

Dr. Shen Hu is tenured associate professor at the School of Dentistry and Jonsson Comprehensive Cancer Center of the University of California, Los Angeles (UCLA). He is an expert in the field of mass spectrometry-based proteomics and metabolomics of cancers and oral diseases. During his PhD and Postdoctoral training, Dr. Hu was working on single cell analysis of neurotransmitters, single cell proteome analysis and 2-D capillary electrophoresis. After he joined the UCLA, his lab is currently focusing on systems biologic analysis (proteomics and metabolomics) of head/neck cancer, pancreatic cancer and oral diseases using mass spectrometry, protein microarray and molecular biology approaches. Dr. Hu has published more than 80 research articles and book chapters. He is also the MS Graduate Program Director at the UCLA School of Dentistry where he is heavily involved in graduate student teaching and mentoring.

Research Interest:

Dr. Hu's research interests are in the area of cancer proteomics/metabolomics focusing on understanding the molecular mechanisms and developing diagnostic/therapeutic applications using mass spectrometry and protein microarray technology. His lab is also studying oral diseases, single cell proteomics and stem cell biology.

I also attached my photo.

Thanks for your invitation. Please keep me updated with the process.

Best wishes,

Shen

Dear Dr. Shen Hu,

We cordially invite you to be as an Editorial Board Member for the [Mass Spectrometry: Open Access](#)

[OMICS](#) is successfully publishing quality open access journals with the support from scientists like you. We are aware of your reputation for quality of research and trustworthiness in related field and that is why you have been chosen as an **Editorial Board Member**.

OMICS uses Editorial Manager® for quality review process. Editorial Manager® is an online submission and review system. Authors may submit manuscripts and track their progress through the system, hopefully to publication. Reviewers can download manuscripts and submit their opinions to the editor. Editors can manage the whole submission/review/revise/publish process. Publishers can see what manuscripts are in the pipeline awaiting publication. E-mail is sent automatically to appropriate parties when significant events occur.

All works published by OMICS are under the terms of the Creative Commons Attribution License. This permits anyone to copy, distribute, transmit and adapt the work provided the original work and source is appropriately cited. OMICS supports the Bethesda statement on Open Access publishing.

We may again assure you of international quality and standards of our articles published in our journals, using state-of-the-art prominent reviewers and editorial board. We also assure you of our best co-operation always.

If you are interested, you are requested to send your **Biography** (150 words), **Research Interests**, **Photograph** for our records.

We look forward to a close and lasting scientific relationship for the benefit of scientific community.

With Regards,

Maria Carla

Editorial Assistant
