Subject: invitation

This is to clarify that at the present time, I no longer work in the operating room. I still go and attend meetings in the Or and ICU because of the ongoing preceptorship in the nurse residency program. I developed the Married State Preceptorship Model (MSPM) use to transition new nurses in all areas in nursing. I am on my candidacy and my dissertation is on preceptorship. That being said, my specialty is focused on preceptorship and nursing leadership. If you still would like me to be in the panel, I would be honored.

I had attached my short bio. Unfortunately, my picture cannot be sent, it won't allow me because it's a huge file. I just had it in words. please tell me if this is acceptable.

Thank you.
