

Cloning & Transgenesis

Dear Editor,

It is until recently that I reviewed this email regarding an invitation as an Editorial Board Member of the Cloning and Transgenesis Journal. I would be interested and honoured to be an Editorial Board Member, and I hope it would not be too late.

Here, I attached:

1. My CV
2. Biography and Research Interests
3. A recent passport size photo

Please excuse my late response and let me know if your invitation is still valid, and if so, if you need further information. I would also like to know more about the workflow as an Editorial Board Member. Thanks.

Best,

Karen Yuen
