Bioterrorism is terrorism involving the intentional release or dissemination of biological agents (bacteria, viruses, or toxins). The Journal of Bioterrorism & Biodefense addresses the aspects of bioterrorism and biodefense.

The Journal of Bioterrorism & Biodefense under open access category aims to advance our understanding of the harmful effects of the bioterrorism and approaches for biodefense of potentially harmful agents. The Journal of Bioterrorism & Biodefense is an international, peer-reviewed journal publishing an overview of research on Bioterrorism and biodefense.

The Journal of Bioterrorism & Biodefense explicates the complicated aspects of bioterrorism that cause harmful effects to mankind and also biodefense mechanisms through which bioterrorism can be controlled or prevented. The Journal is promptly available, and is freely accessible globally through internet to share the innovations of the researchers for scholarly advancement in this field.

Journal of Bioterrorism & Biodefense - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at:
